SMALL SIDED PITCH SET-UP EXAMPLES

Please find examples of pitch set-ups for Small Sided Football.

Please note most 3G facility providers prohibit spectators on the 3G surface therefore, some of the set-up examples will need to be modified to ensure spectators remain off the playing surface and behind barriers.

We would advise using flat markers to mark out pitches rather than raised cones.

The number of people allowed at venues will be subject to Welsh Government's COVID-19 guidelines and the facility provider's protocols. Therefore, it might not be possible at this time to organise venues where a large number of teams attend at the same time.
